SUSTAINABLE DEVELOPMENT CHARTER ECORESPONSIBLE[™] PROGRAM

Imprimerie Ste · Julie We print emotions!

OUR STRATEGIC ORIENTATIONS

IN ORDER TO ACHIEVE OUR VISION SUPPORTED BY SUSTAINABLE DEVELOPMENT, HERE ARE THE STRATEGIC ORIENTATIONS THAT SPECIFY OUR COMMITMENT:

GOVERNANCE

ECONOMIC

SOCIAL

AN EMPLOYER OF CHOICE RECOGNIZED BY ITS EMPLOYEES, THE MARKET AND THE COMMUNITY

ENVIRONMENTAL

SCOPE AND RESPONSIBILITIES

This charter applies to all employees and managers of the organization. We will strengthen our organizational culture through continuous improvement. We undertake to comply with the legal rules applicable in the country(ies) and territory(ies) where we operate. We will periodically monitor the issues relevant to our field or sector of activity, involve the resources necessary for the changes and put in place effective management methods. We are responsible for remaining compliant with the ECO-RESPONSIBLE™ certification criteria and will take the necessary measures to ensure this.

March 2020

Caroline Fournier

THIS CHARTER REFLECTS **IMPRIMERIE STE-JULIE**'S COMMITMENT TOWARDS SUSTAINABLE DEVELOPMENT, WHICH IS COMMITTED TO CARRYING OUT ITS ACTIVITIES IN AN EVER MORE ECO-RESPONSIBLE MANNER BY RESPECTING THE BALANCE BETWEEN SOCIAL JUSTICE. ENVIRONMENTAL PRESERVATION AND ECONOMIC PROGRESS.

Our organization is committed to carrying out its activities in an increasingly eco-responsible manner. We have joined the GREAT ECO-RESPONSIBLE **MOVEMENT™** of the Council of Sustainable Industries to promote, accelerate and facilitate the integration of the principles of sustainable development into our business model and wish to actively contribute to building a better world, without compromising that of future generations.

We also encourage our suppliers, customers and subcontractors to implement an organizational culture that integrates eco-responsibility and wish to positively influence the activities of the entire value chain linked to our products and services.

The global approach that we have adopted is inspired by recognized international standards in terms of the social responsibility of organizations and the management of sustainable development, such as ISO 26000, the BNQ 21000 guide and the guidelines for accountability of the Global Reporting Initiative (GRI).

The strategic thinking, development and implementation of the resulting actions, also integrate the 16 principles of sustainable development that are at the heart of Quebec's Sustainable Development Act.

Our initiative aims to contribute to the achievement of the 17 Sustainable Development Goals of the United Nations (UN), according to our various organizational and sectoral challenges.

OUR ORGANIZATIONAL APPROACH

As part of the strategic planning process initiated by joining the **ECO-RESPONSIBLE™** Program, an organizational diagnosis made it possible to look at the consideration of sustainable development in the management practices of our organization and to identify the issues to be addressed in a perspective of progress and better overall performance. We have also adopted an Eco-responsible Plan to structure our strategy and its effective implementation for the years to come.

OUR PURPOSE

For more than 45 years, we have been setting the standards for the label and shrink sleeve printing industry. We have refined our techniques to the point that printing is for us an art that we master to perfection. Our research and development department is constantly reinventing processes to produce packaging that meets the increasingly high standards of our customers.

OUR ECO-RESPONSIBLE SCENARIO

The members of the Eco-responsible Committee are committed to identifying and carrying out responsible projects aimed at the well-being and development of human capital, the preservation of resources, and the reduction of the environmental footprint.

As agents of change, we promote innovation, collaboration, and the involvement of our stakeholders

Listening to employee concerns and maintaining our constant desire to improve will ensure the sustainability of the company.

Promoters of the company's values, we work to promote it within its community, while respecting the planet for generations to come.
