

FREIGHT CHARGES POLICY

Last modification date: 2023-03-01

Freight charges are always calculated before taxes. This policy applies for our regular ground service. The charges will be applied at all times except for the following cases:

	Amount of the order before taxes by delivery address
Montréal - métropolitain (QC)	200\$ and +
Elsewhere in Quebec and Ontario	650\$ and +
Remote regions*	At your own expense
Regions not deserved by Purolator	
Rest of Canada (ROC)	
United State / International	

***Remote regions example:**

Quebec: Iles de la Madeleine, Chibougamau, Chisasibi, Havre St-Pierre...etc.
Ontario: Elk Lake, Thunder Bay...etc.

For more details concerning geographical territories, please contact us.

Amounts payable by the client if applicable:

- 1 Customs and brokerage fees are the responsibility of the client.
- 2 Express shipping fees
- 3 The environment where the shrink sleeves are stocked and carried must be controlled. If a refrigerated carrier is mandatory because of the exterior temperature, the additional amount payable will have to be assumed by the client. (extra client = invoice with refrigeration - standard invoice)
- 4 The clients are always responsible of the freight charge of the merchandise requiring shrink sleeves application into our premises
- 5 Freight charges for orders requiring label application on forms that we did not print will be the responsibility of the clients.

You always have the opportunity to use the carrier of your choice, but you will then assume the freight charges.

Freight charges are applicable on each invoice and by delivery address.

We reserve ourselves the right to revise this policy without notice.

Sincerely,

Pascal Fortin, Financial Manager
